REMINDERS TO COUNSEL & E-FILERS

—PDF DOCUMENT SIZES—

Have you ever really thought about the size of the electronic files you use every day?

When we upload PDF documents to CM/ECF, each file takes up digital space. With the way computer networking works, these files are backed up multiple times over the course of their existence. If the file is not compressed, it's potentially wasting a lot of storage space on the CM/ECF server.

The Clerk's Office would like to suggest compacting/ compressing your PDF files prior to uploading them to CM/ECF. Oftentimes, a large percentage of the original file size can be reduced by upwards of 90% or more!

Some things to consider:

- 1. Scanned documents are (almost) always larger in size than a converted document.
- 2. If a document has a lot of color/pictures, it will be larger Inside this issue: than a black and white document.
- 3. If a document has a lot of "black" on it (lots of text, headers, pictures, small fonts, etc), it will be larger than one with less "stuff."

Not sure how to compress a PDF document? See the following page for instructions.

Court Closures:

- The Clerk's Office will be closed November 10th in recognition of Veterans Day.
- The Clerk's Office will be closed November 23rd and 24th in recognition of Thanksgiving Day. A contact number will be provided on our website in the event of an emergency on 11/24.
